

SimNASA team looking for members

Written by Tom Mantel - Last Updated Saturday, 03 September 2011 13:38

Ever wanted to fly a Satellite or work as a flight controller for NASA? Well now you can. According to their site [SimNASA](#) is run in the spare time of NASA engineers who want to share the experience with anyone who is interested. Simulations will be with real people, just like you using the [SimNASA simulators](#) . All you need is a computer with a web browser to participate. The SimNASA software totally runs within the browser.

With actual NASA engineers running the show this might be an interesting new concept if you have ever wanted to see if you have the right stuff!!

The SimNASA team states that any age or education level can participate so don't be intimidated...a major goal if SimNASA is FUN! Here is a link to the [www.SimNASA.com web site](http://www.SimNASA.com).

According to their site "We are looking for a few good...PEOPLE!! Any age, any education, any location..the only requirement is DESIRE!! If you have ever wanted to run a NASA mission, be a flight controller, troubleshoot billions of dollars of spacecraft hardware now is your chance!!"

Good luck Space Cadet!
